SUMMARY

Enthusiastic and results-driven Computer Science student at Government Polytechnic Khamgaon (CO3K) with hands-on experience in full stack web development, AI/ML and cloud technologies. Skilled in problem-solving, teamwork and building user-centric solutions. Passionate about technology, innovation and entrepreneurship, with a goal to become a software engineer and gain industry experience.

EDUCATION

- **Diploma in Computer Engineering**
  Government Polytechnic Khamgaon (MSBTE – K Scheme)
  2025 – 2028 (Expected)
- **10th (SSC)**
  State Board
  2025 | 90%

TECHNICAL SKILLS

- **Programming Languages**
  C, C++, Java, Python, JavaScript
- **Web Development**
  React, HTML, CSS, Tailwind CSS, Node.js (learning), Django
- **Database**
  MySQL, SQLite
- **Tools & Platforms**
  VS Code, Git, GitHub, Postman, Firebase (basic)
- **AI / ML & Cloud**
  AI/ML, Azure AI, AWS (basic), OpenAI, LangChain (learning), Agentic AI
- **Other**
  Data Structures & Algorithms, OOP, DBMS, Networking, Linux (basic)

INTERNSHIP / WORK EXPERIENCE

Full Stack Web Development Intern – Cosmolix Pvt. Ltd., Pune Jul 2026 – Aug 2026

- Developed and maintained web applications using React, JavaScript, HTML, CSS and MySQL.
- Worked on real-world projects and collaborated with the development team.
- Gained practical experience in full stack development and problem-solving.

PROJECTS

01 ShramikConnect (Hackathon Winner – Aptenix AI Innovation Lab 2026) 2026
- Platform to connect blue-collar workers with job opportunities.
- Implemented job discovery, applications, profiles, work history and user workflows.
- Worked on frontend, backend integration, system design and AI features.

Technologies: Python (Django), HTML, CSS, JavaScript, SQLite

02 Aptivon / SkillVista – RACKATHON 2026 (G.H. Raisoni Amravati) 2026
- Built an AI-powered skill development and career tracking platform.
- Implemented skill tracker and development features.
- Contributed to system design and development.

Technologies: Python, Django, HTML, CSS, JavaScript

03 HydroMind-AI 2026
- Smart irrigation and plant health monitoring web application.
- Worked on ML-based analysis and web dashboard.

Technologies: Python, ML, Web Technologies

04 Wari Twin 2026
- YOLOv8 + DeepSORT based object tracking system.

Technologies: Python, YOLOv8, DeepSORT

05 WeatherVS 2026
- Real-time weather information for India.

Technologies: Python, API Integration, Web Technologies

06 MSPME – AI Predictive Maintenance 2026
- Used ESP32 sensors and ML for industrial equipment maintenance.

Technologies: Python, ML, IoT

07 Lesson Plan Builder 2026
- Mini web application to generate lesson plans using HTML, CSS and JavaScript.

Technologies: HTML, CSS, JavaScript

CERTIFICATIONS & TRAINING

CDAC Certified C Programming Course (Offline)		3 Months
Generative AI Certification	NxtWave + Be10X	2026
Agentic AI Workshop	360DigiTMG	2026
Google AI Agents Intensive	Kaggle (Certificate + Badge)	2026
Azure AI Labs / AI-900	PiyushAI EdTech + IIT Madras (12/12 Activities Complete)	2026
